

Children's exposure to pesticides should be limited as much as possible.

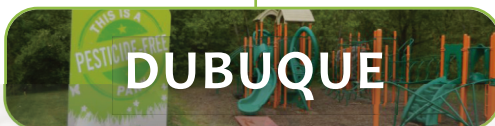

American Academy of Pediatrics

MAKE PESTICIDE USE A THING OF THE PAST!

Cosmetic urban pesticide use poses unacceptable risks to child development and environmental health. Protect Iowa's children and the environment by eliminating the use of toxic lawn chemicals. Natural lawns managed without pesticides support pollinators, urban stream health, and healthy child development. See our full evidence of harm at

www.goodneighbor Iowa.org/evidence-of-harm.

Accomplishments

- ✓ **40+** schools
- ✓ **75+** childcare centers
- ✓ **230+** parks
- ✓ **80+** businesses & institutions
- ✓ **1,800+** residents
- ✓ **12,000+** pesticide-free acres
- ✓ **143,700+** lbs. of active ingredients *not* applied
- ✓ **20,000+** children protected

Good Neighbor Iowa aims to reduce unnecessary urban pesticide use and to transform lawn culture to encourage appreciation of diverse lawns as a way to protect child health, water quality, pets, pollinators, and biodiversity.

This statewide public health education initiative is managed through partnership with the University of Northern Iowa's Center for Energy and Environmental Education.

Join communities across Iowa leading this initiative!

- ✓ School Districts
- ✓ Public Parks
- ✓ Childcare Centers
- ✓ Businesses and Institutions
- ✓ Residents across the state
